ABOUT GOLD'S GYM

Gold's Gym is a well-known global fitness brand offering quality workout equipment, group classes, and professional trainers. It provides an energetic and motivating environment for people to stay fit, build strength, and work towards their fitness goals.

COLOUR PALETTE

Gold's Gym primarily uses three main colours — Gold/Yellow, Black, and White — creating a bold, high-contrast visual identity.

Gold / Yellow

The primary brand colour, used for strong visual impact and brand recognition.

Black

Used for the logo, typography, outlines, and contrast.

White

Used mainly as a supporting/background colour to create contrast with the yellow and black.

TYPOGRAPHY

Gold's Gym uses bold and strong typography that matches its energetic and powerful fitness identity.

Style: Bold, wide and strong

Font: Similar to Latin Wide

Letter Case: Mostly UPPERCASE

Shape: Wide letters with sharp, pointed serifs

Look & Feel: Powerful, sporty and confident

Purpose: Makes the brand name stand out and gives it a strong gym-focused personality

GOLD'S GYM LOGO

The Gold's Gym logo is a strong visual symbol that represents strength, fitness and bodybuilding.

- **Symbol:** Muscular bodybuilder figure in a circular badge.
- **Pose:** Front-facing bodybuilding pose.
- **Shape:** Circular, compact and recognizable.
- **Style:** Bold, solid and minimal.
- **Colours:** Gold/Yellow, Black and White.
- **Meaning:** Represents strength, power and fitness.
- **Key Feature:** The bodybuilder silhouette makes the logo instantly recognizable.

GOLD'S GYM - OVERALL VISUAL IDENTITY

- **Colour:** Gold/Yellow + Black + White — bold and high-contrast.
- **Logo:** Bodybuilder figure in a circular badge.
- **Typography:** Bold, wide and uppercase.
- **Visual Style:** Strong, energetic and impactful.
- **Graphics:** Geometric shapes, thick lines and solid forms.
- **Personality:** Powerful, confident and motivating.
- **Consistency:** Same visual style across signage, interiors, merchandise and digital media.

What Makes Us Different Than Others

WHAT IS THE PURPOSE OF DASHBOARD?

- To give the Admin Head a quick view of gym performance.
- To track important areas like visitors, trainers, sessions and equipment.
- To spot changes or problems without checking different records.
- To support faster and better day-to-day decisions.

WHO IS THE PRIMARY AUDIENCE?

- The main user is the **Admin Head** of Gold's Gym.
- It is designed for someone responsible for managing overall gym operations.
- It helps them monitor staff, members, sessions and facilities.
- The information is presented for quick monitoring and decision-making.

WHEN WILL THIS DASHBOARD BE USED?

- The dashboard will be used daily by the Admin Head.
- It provides a quick view of day-to-day gym activities and performance.
- It can be checked throughout the day to monitor ongoing operations.
- Information like membership targets and weekly visitor trends can be reviewed once a week.

HOW DOES THIS DASHBOARD HELP THE USER TAKE ACTION?

- Based on class occupancy, the Admin Head can increase or reduce session capacity.
- By checking machine repair status, they can schedule maintenance or replace faulty equipment.
- From trainer availability, they can adjust schedules or allocate trainers.
- By monitoring visitor trends, they can plan staffing and sessions according to demand.
- By checking membership progress, they can plan offers or activities to reach the target.

WHAT ARE THE GOALS AND KPIS?

Goal:

To monitor gym performance and manage daily operations efficiently.

KPIs:

- Total Visitors – measures gym footfall.
- Workout Sessions & Class Occupancy – measures usage of sessions and available capacity.
- Total Trainers – tracks staff availability.
- Machine Status – monitors equipment condition.
- Membership Target – tracks progress toward the membership goal.

WHY ARE THESE KPIS BEING TRACKED?

- **Total Visitors** → to understand daily gym footfall.
- **Class Occupancy & Sessions** → to manage class capacity and demand.
- **Trainer Availability** → to ensure enough trainers are available for sessions.
- **Machine Status** → to identify equipment that needs maintenance.
- **Membership Target** → to track progress towards the gym's membership goal.

WHY EACH VISUALISATION METHOD WAS CHOSEN?

KPI BOXES

Used for the most important numbers that need to be seen quickly.

The simple format allows the Admin Head to understand the current gym performance at a glance.

TABLES

Machine Name	Location	Status	Last Serviced
Treadmil 1	Cardio Area	working	Sep 10, 2025
Treadmil 2	Cardio Area	Under repair	Sep 8, 2025
Elliptical1	Cardio Area	working	Sep 15, 2025
Leg Press	Strength Zone	Scheduled Maintainance	Sep 20, 2025
Rowing Machine	Crossfit Area	working	Sep 12, 2025

Today's Trainer Overview				
				● Present ● On leave
Icon	Name	Activity	Sessions	Status
A	Aditi Sharma	Yoga	3 Sessions	●
R	Raj Mehta	Strength	4 Sessions	●
N	Neha Patel	HIIT	3 Sessions	●
A	Arjun Singh	CrossFit	2 Sessions	●
S	Simran Kaur	Yoga	1 Session	●
J	Jay Kumar	Cardio	2 Sessions	●

Tables are used because this information needs multiple details to be checked together, such as name, status, sessions and service date. The coloured status indicators make important information stand out quickly, for example, green for available/working and red for issues so the Admin Head can identify what needs attention without reading every row.

CAPACITY BARS

Used to show occupied seats compared with total capacity. The filled portion makes it easy to identify classes that are full, almost full, or have more space.

HALF DOUGHNUT CHART

Suitable for showing progress towards a fixed target. The filled section clearly shows how much of the membership target has been achieved.

CALENDERS

Suitable for information based on dates and schedules. It gives a clear view of upcoming events and when they are happening.

LINE CHART

WEEKLY VISITOR TREND

Best suited for information that changes over time. The connected points make increases and decreases in visitors across the week easy to identify.

DOUGHNUT CHART

Age-wise Visitor Distribution

Useful because the age groups represent parts of the total visitors. The different sections make the proportion of each age group easy to compare.
